

# **“What to Do in Case” Series**

---

***Greensboro Police Department***

## **A Stranger Knocks on Your Door**

Don't ignore the knock. Let the person know someone is home.

Make sure your door is locked.

Look through the peephole/ window/security camera to see who it is.

Ask who it is and what they want.

Talk to them through the door, or through the crack with the door chain on.

Don't let them inside. If they say they have an emergency, call 911 for them.

If they are selling something, ask them to leave their business card. Research the company, then call the company to set up an appointment if you are interested in their goods or services.
